web: www.after-dinner.net

After-Dinner.net releases a four track EP produced by Monochord: **Contradictions EP** combines the rhythm patterns of house music with sounds of 80's electro in a minimal and playful production.

Behind the **Monochord** moniker stands San Paolo's George Alveskog. George has also released as *Quirckstensch* and performed live as *Einstein on the Beach* at nights including D-Edge, Lov.E, Motronic and File 2005. George started writing music at a very young age of fifteen as well as he studied the guitar. In 2001 he finished a Sound Engineering course at the Audio & Video Institute in São Paulo and is producing mostly house and experimental electronic music.

The first track **Contradiction** starts in breathtaking manner, building up tension up to a mid song breakdown. The track takes a major turn introducing playful elements of be-bop. **No Question No Answer** is characterised by a deep metallic riff over a straightforward beat. The groovy bassline in **Patterns Differences** is contributing to the laissez-faire attitude of this track. **Sinuous Pattern One** is the most minimal production of the EP: A playful and highly rhythmic track.

Contradictions EP is a four track Internet release. It is released on After-Dinner.net within the Creative Commons framework - which allows **free download**, whereas sharing and remixing is allowed for non-commercial purpose - as long as attribution is given. visit: <http://www.after-dinner.net/releases/1011AD.html>
